

Dear Client,

You are the reason we're here, and we want you to be up-to-date about important happenings here at Meals on Wheels of Boulder.

We want you to know we will be building to a new facility in northeast Boulder and moving in late 2018. This move will not affect your meals – we will continue to prepare and our volunteers will continue to deliver the meals you depend on!

Here are some additional details:

- Recognizing the importance of our work, the City of Boulder has decided to include Meals on Wheels of Boulder in the proposed Culture and Safety Sales Tax Extension. This ballot issue will go to voters in November. We hope we can count on your vote for this important opportunity.
- The total cost to build our new facility is anticipated to be about 3.2 million dollars. If the Sales Tax Extension passes, \$1.6 million will be funded by these sales tax revenues in the form of a dollar-for-dollar match.
- We anticipate breaking ground in late 2017. We will launch a fundraising campaign in early 2018. We expect the building to be complete in late 2018.
- If you have questions, please do not hesitate to call Patricia or Lehshel at 303.441.3908. Your drivers do not have all of the information about these coming changes, so it's best to speak to a staff member if you have questions.
- We will continue to update you periodically during this exciting time.
- Thank you for allowing us to serve you. You truly are the reason we're here!
